B. Purpose of the program:

- To meet the housing needs of the very low, low and moderate-income households;
- To expand production of and preserve affordable housing; and
- To further the housing element of the local government comprehensive plan specific to affordable housing.

C. Fiscal years covered by the Plan: 2022-2023, 2023-2024, 2024-2025

D. Governance: The SHIP Program is established in accordance with Section 420.907-9079, Florida Statutes and Chapter 67-37, Florida Administrative Code. Cities and Counties must be in compliance with these applicable statutes, rules and any additional requirements as established through the Legislative process.

E. Local Housing Partnership: The SHIP Program encourages building active partnerships between government, lending institutions, builders and developers, not-for-profit and community-based housing providers and service organizations, providers of professional services related to affordable housing, advocates for low-income persons, real estate professionals, persons or entities that can provide housing or support services and lead agencies of the local continuums of care.

F. Leveraging: The Plan is intended to increase the availability of affordable residential units by combining local resources and cost saving measures into a local housing partnership and using public and private funds to reduce the cost of housing. SHIP funds may be leveraged with or used to supplement other Florida Housing Finance Corporation programs and to provide local match to obtain federal housing grants or programs.

G. Public Input: Public input was solicited through face-to-face meetings with housing providers, social service providers and local lenders and neighborhood associations. Public input was solicited through the City’s website in the advertising of the Local Housing Assistance Plan and the Notice of Funding Availability. The 2022-2025 LHAP was presented to the City of Fort Myers City Council as an advertised public meeting on April 18, 2022.

H. Advertising and Outreach: SHIP funding availability shall be advertised on the City’s website and online serving ethnic and diverse neighborhoods, at least 30 days before the beginning of the application period. If no funding is available due to a waiting list, no notice of funding availability is required.

I. Waiting List/Priorities: A waiting list will be established when there are eligible applicants for strategies that no longer have funding available. Those households on the waiting list will be notified of their status. Applicants will be maintained in an order that is consistent with the time completed applications were submitted as well as any established funding priorities as described in this plan.

The following priorities for funding (very low income, Special Needs, etc.) described/listed here apply to all strategies unless otherwise stated in an individual strategy in Section II:

Eligible applicants will be assisted on a first-qualified, first served basis with priorities for Special Needs, Essential Services Personnel and then income groups.

- J. **Discrimination:** In accordance with the provisions of ss.760.20-760.37, it is unlawful to discriminate on the basis of race, color, religion, sex, national origin, age, handicap, or marital status in the award application process for eligible housing.
- K. **Support Services and Counseling:** Support services are available from various sources. Available support services may include but are not limited to: Homeownership Counseling (Pre and Post), Credit Counseling, Tenant Counseling, Foreclosure Counseling and Transportation.
- L. **Purchase Price Limits:** The sales price or value of new or existing eligible housing may not exceed 90% of the average area purchase price in the statistical area in which the eligible housing is located. Such average area purchase price may be that calculated for any 12-month period beginning not earlier than the fourth calendar year prior to the year in which the award occurs. The sales price of new and existing units, which can be lower but may not exceed 90% of the average area purchase price established by the U.S. Treasury Department or as described above.

The methodology used is:

U.S. Treasury Department	X
Local HFA Numbers	

- M. **Income Limits, Rent Limits and Affordability:** The Income and Rent Limits used in the SHIP Program are updated annually by the Department of Housing and Urban Development and posted at www.floridahousing.org.

“Affordable” means that monthly rents or mortgage payments including taxes and insurance do not exceed 30 percent of that amount which represents the percentage of the median annual gross income for the households as indicated in Sections 420.9071, F.S. However, it is not the intent to limit an individual household’s ability to devote more than 30% of its income for housing, and housing for which a household devotes more than 30% of its income shall be deemed Affordable if the first institutional mortgage lender is satisfied that the household can afford mortgage payments in excess of the 30% benchmark and in the case of rental housing does not exceed those rental limits adjusted for bedroom size.

- N. **Welfare Transition Program:** Should an eligible sponsor be used, a qualification system and selection criteria for applications for Awards to eligible sponsors shall be developed, which includes a description that demonstrates how eligible sponsors that employ personnel from the Welfare Transition Program will be given preference in the selection process.

- O. Monitoring and First Right of Refusal:** In the case of rental housing, the staff and any entity that has administrative authority for implementing the local housing assistance plan assisting rental developments shall annually monitor and determine tenant eligibility or, to the extent another governmental entity provides periodic monitoring and determination, a municipality, county or local housing financing authority may rely on such monitoring and determination of tenant eligibility. However, any loan or grant in the original amount of \$10,000 or less shall not be subject to these annual monitoring and determination of tenant eligibility requirements. Tenant eligibility will be monitored annually for no less than 15 years or the term of assistance whichever is longer unless as specified above. Eligible sponsors that offer rental housing for sale before 15 years or that have remaining mortgages funded under this program must give a first right of refusal to eligible nonprofit organizations for purchase at the current market value for continued occupancy by eligible persons.
- P. Administrative Budget:** A line-item budget is attached as Exhibit A. The city/county finds that the moneys deposited in the local housing assistance trust fund are necessary to administer and implement the local housing assistance plan.

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, states: “A county or an eligible municipality may not exceed the 5 percent limitation on administrative costs, unless its governing body finds, by resolution, that 5 percent of the local housing distribution plus 5 percent of program income is insufficient to adequately pay the necessary costs of administering the local housing assistance plan.”

Section 420.9075 Florida Statute and Chapter 67-37, Florida Administrative Code, further states: “The cost of administering the program may not exceed 10 percent of the local housing distribution plus 5 percent of program income deposited into the trust fund, except that small counties, as defined in s. 120.52(19), and eligible municipalities receiving a local housing distribution of up to \$350,000 may use up to 10 percent of program income for administrative costs.” The applicable local jurisdiction has adopted the above findings in the resolution attached as Exhibit E.

- Q. Program Administration:** Administration of the local housing assistance plan will be performed by:

Entity	Duties	Admin. Fee Percentage
City of Fort Myers	The City will perform all administrative duties	100

Prioritization of funding will be for the rehabilitation of owner-occupied homes and other approved LHAP strategies of persons with special needs. III. LHAP Incentive Strategies

In addition to the **required Incentive Strategy A and Strategy B**, include all adopted incentives with the policies and procedures used for implementation as provided in Section 420.9076, F.S.:

- A. Name of the Strategy: **Expedited Permitting**
Permits as defined in s. 163.3177 (6) (f) (3) for affordable housing projects are expedited to a greater degree than other projects.

Provide a description of the procedures used to implement this strategy:

The current permitting process begins in the Community Development Department's Permitting Division. The division receives a permit application for processing and determines if the Plan Review process is required or if the permit can be issued over the counter to the applicant based on the permit type. If a plan review process is required, all associated fees are collected at the time of application. If it is determined that the required permit can be issued over the counter, fees are collected, and the permit is issued.

The staff subsequently determines if the permit application is required to undergo an "expedited" review process or the "standard" review process. The general plan review process takes between 7 days for a residential project and 21 days for a commercial project. The current lists of expedited permits include city-owned property, affordable housing, and permits that can be issued over the counter.

The permit applications that undergo an "expedited" review process are processed, scanned and distributed immediately to the Plan Review. In addition, the files and plans are scanned and distributed electronically to the plan reviewers that are required to review the permit application. They are also notified by email of the need to "expedite" their review. The completion time for the expedited review process is approximately one to two business days and requires cooperation of all departments.

Upon completion of the Plan Review process, either a Plan Review comment letter or a fee sheet is generated and sent to the applicant to inform them of the outcome of the review process. Plans that have to be resubmitted or revised are processed and distributed using the same process (standard or expedited) that was used previously.

- B. Name of the Strategy: **Ongoing Review Process**
An ongoing process for review of local policies, ordinances, regulations and plan provisions that increase the cost of housing prior to their adoption.

Provide a description of the procedures used to implement this strategy:

Housing and Development Planner will submit a request for Department Heads to assign staff to the Affordable Housing Taskforce. The Housing and Development Planner will act as the main person of contact for the taskforce. Additionally, the Planner will schedule quarterly meetings. Participating staff should inform the Planner and/or Community Development Director of any new policies or changes in their respective departments that may affect affordable housing. Additionally, the Planner may schedule joint meetings with the Affordable Housing Oversight Team and the Local Affordable Housing Advisory Committee, as needed. The Housing and Real Estate Division will create a checklist of items that may increase the cost of housing and provide to team. Major policy request will be reported directly to the Community Development Director. The Affordable Housing Oversight Team and the Local Affordable Housing Advisory Committee will be responsible for making recommendations on policy changes, code amendments, and/or any other items that may affect the cost of affordable housing.

C. Other Incentive Strategies Adopted:

MODIFICATION OF IMPACT FEES

Impact Fees often increase the cost of housing thus limiting the availability of affordable housing and/or the number of developers willing to provide affordable housing. The purpose of an impact fee waiver is to modify impact fee requirements by reducing or waiving fees.

Established policy and procedures: In both Lee County and the City of Fort Myers, the imposition of impact fees, except school impact fees, is waived for residential construction zone located within the boundaries. Also, the collection rates for Road, School and Regional Park impact fees is reduced in accordance to the following schedule:

	Commencement Date	Expiration Date
45%	March 7, 2018	March 6, 2019
47.5%	March 7, 2019	March 6, 2020
50%	March 7, 2020	March 8, 2021
52.5%	March 9, 2021	March 9, 2022
55%	March 10, 2022	until further action by LCBOCC

FLEXIBLE DENSITIES

Allowing flexible densities provides opportunities for developers to be more flexible in their pricing and provide more affordable housing.

Established policy and procedures: The existing Land Development Code allows for a variety of density options.

RESERVATION OF INFRASTRUCTURE CAPACITY

With the requirements that new development cannot occur without infrastructure capacity, there is a growing need to ensure capacity is reserved in the water, sanitary sewer, transportation, and school systems for affordable housing.

Established policy and procedures: There is no current policy to reserve infrastructure capacity. This is decided on a case- by-case basis and per each development.

PARKING AND SETBACK REQUIREMENTS

Surface parking for multi-family developments consumes an exorbitant amount of land that can be used for additional development.

Established policy and procedures: The current code requires the following for parking and setbacks

Single-family:

Two (2) parking spaces per dwelling unit with a twenty (20'), twenty-five (25') feet front setbacks

Multifamily:

1 bedroom or studio: 1.5 spaces per unit, 2+ bedrooms: 2 spaces per unit

Visitor: 1 space per 15 units with a fifteen (15') feet for multi-family

AFFORDABLE ACCESSORY RESIDENTIAL UNITS

Accessory Dwellings provide supplementary housing that can be integrated into existing single-family neighborhoods to provide a typically lower priced housing alternative with little or no negative impact on the character of the neighborhood.

Established policy and procedures: Accessory Dwelling units are permitted, but may not be leased, rented, or utilized for commercial purposes.

FLEXIBLE LOT CONFIGURATIONS

Flexible Lot Configurations provide flexibility for owners with substandard or small lot configurations.

Established policy and procedures: Flexible lot configurations are not allowed by-right for affordable housing projects, but the City encourage and allow zero lot-line, angled lots, and other lot configurations.

MODIFICATION OF STREET REQUIREMENTS

On-street parking cuts cost from excess parking areas. Reduced pavement widths cut costs and increases safety for both the pedestrian and vehicle driver.

Established policy and procedures: The existing code requires each traffic lane shall be a minimum of 12 feet in width on a public local road and the road shall be 50 feet in width with curb and gutter and 60 with swale. Each traffic lane shall be a minimum of ten feet in width with a two-foot mountable curb for private roads in residential communities. Additional lanes shall be constructed as needed to maintain the level of service standard on all streets and intersections. Deceleration or turning lanes shall be provided where deemed necessary and constructed in accordance with the turn lane policy

Private community roadways shall be built to City roadway specifications as if a public roadway.

PUBLIC LAND INVENTORY

Established policy and procedures: The City of Fort Myers Housing and Real Estate Division currently holds the Land Bank Inventory of vacant lots and structures throughout the City. Annually, the Real Estate Division identifies City Lots that are suitable for affordable housing. The Administration Section 2-38 Conveyance of City property, and Section 2-39 Acquisition of Fort Myers Land Development code regulates the sell and purchase of property. In addition, State Statue 163.380 requires the City to inventory vacant lots that were approved for affordable residential development and approved the list by City ordinance and submit to the State. The list is requires updating every three years.

SUPPORT OF DEVELOPMENT NEAR TRANSPORTATION HUBS

With the possibility of fuel costs increasing and the downturn in the economy, it is more important than ever to live near public transportation and areas with opportunities for employment.

Established policy and procedures: Affordable housing development near Transportation Hubs is addressed in the Future Land Use section of the Comprehensive Plan.

INCLUSIONARY ZONING

Inclusionary Zoning assists in the preparation of mixed-use environments with multiple housing types and income levels. By linking the production of affordable housing to private market development, inclusionary zoning expands the supply of affordable housing while dispersing affordable units throughout the municipality.

Established policy and procedures: The City does not have Inclusionary Zoning.
