Description of all hard surfaces contained within the parcel	Existing area (sq ft)	Proposed area, to be added or removed (sq ft)

By signing this form, I understand that I am requesting the City recalculate the stormwater user fee for this property based on the information provided on this form and documentation.

 Property Owner Signature

 Date

Only complete applications and required documentation shall be processed for approval. The Stormwater Utility Director shall submit the decision of the appeal in writing within 30 days of receipt of the completed application. The applicant can expect to see an adjustment to the monthly bill within 90 days.

For questions regarding this application, please call Stormwater Utilities at (239) 321-7448.

Stormwater User Fee Adjustment Checklist

Fort Myers City Council adopted a Stormwater Management Ordinance on March 16, 2009 approving collection of stormwater user fees for properties within the City. Property owners are billed based on the total impervious area for the parcel, rounded down to the nearest 500 square feet and divided by 500 feet. Stormwater user fees are calculated using the amount of impervious areas on each parcel. Any undisturbed land in its natural state, ponds, or wetlands will not be included in the stormwater user fee calculation.

Impervious areas are defined as hard surfaces which either prevent or severely restrict the entry of water into the soil mantle and/or cause water to run off the surface in greater quantities or at an increased rate of flow from that occurring under natural conditions (prior to development).

The applicant shall list the total area of all hard surfaces onsite; the Stormwater Utility Director shall determine which surfaces shall be considered to be impervious or pervious, in accordance with the Policy for Adjustments of Stormwater Fees. The property owner shall continue to pay the stormwater user fees, regardless of the status of the application.

Required Documentation for Adjustment to Stormwater User Fees

For building or site permit applications that require an Adjustment to Stormwater User Fee Application, submit the Stormwater User Fee Adjustment Form and supporting documentation with permit application to:

City of Fort Myers
Building, Permitting and Inspections Division
1825 Hendry Street
Fort Myers, FL 33901

Complete Application for Processing Shall Include The Following:

- Complete Application for Stormwater User Fee Adjustment
- Site Plan of proposed improvements with area in square feet of all surfaces on parcel and description.
- \$25 processing fee for administrative costs (Shall be included in Permit Fees at the time it is issued)
